

SOLAR SCIENTIFIC CALCULATOR 830005

Highly efficient solar panel requires only 50 lux, works with any available light. Will never need batteries. 10 digit LCD + 2 digit exponent. 15 levels of parenthesis. 67 functions including all the preprogrammed functions of Large Display Scientific Calculator 830003 plus; binary, octal decimal, sexagesimal, and hexadecimal conversion, and standard deviation. Comes with a soft carrying pouch, instructions and a button cell battery. Dim: 5 1/4" x 2 3/4" x 7/16" (133 x 70 x 11 mm). Weight: 2 oz (57 g).

METRIC CONVERTER 830009

Automatically converts U.S. to metric and metric to U.S. for measurements of volume, area, length, temperature, or weight. Unique feature allows conversion of one measurement into every other unit of measure in the same category via a single press on the appropriate buttons. For example input 1 gallon then press "qt" and the display reads 4. Now press "tbsp" and the display reads 256. Next press "ml" and it reads 3785.32, and so on. Also functions as a calculator. Automatic power off. Comes in a convenient hard carrying case with instructions and button cell batteries. Dim: 5 3/8" x 3 5/8" x 1/2" (136 x 92 x 13 g). Weight: 3.7 oz (105 g).

SPER SCIENTIFIC CALCULATORS

Regular calculator companies have the consumer market as their primary focus and view the laboratory market as peripheral. We specialize in the laboratory market only. As a result, we can offer you:

- **Stability:** While general calculator companies change models annually, we understand your need for stability in models and prices due to catalogue copy. These are our first calculator model changes since we introduced this line over 4 years ago.
- **Quality:** We are the only company to include a 5 year warranty with a calculator. The total rate of returns on our calculators is a fraction of 1%.
- **Sourcing:** You do not need to take on an additional vendor for calculators only.
- **Margins:** While our retail prices are competitive with all other calculator brands, we allow you a greater discount than other calculator companies.
- **No Minimums:** For new distributors we require an initial stocking order of \$500. After the initial order, we have no minimum order quantity, so you can try a new product without a large investment, and bring in stock as your sales warrant it.
- **Delivery:** You are our first priority and not last in line behind department store chains and other consumer electronic outlets.
- **Catalogue Copy and Photos:** Are prepared and ready in advance in order to make your job that much easier.
